Volunteer

How can you help?

Provide a **hand up** in terms of job opportunities, rooms for rent, or help with transportation for those in need.

Provide **hand-holding** as mentors, whether just listening to folks as "phone friends" or providing moral support.

Provide **hands on the keyboard**, helping with data entry to effectively monitor the impacts of our efforts and to report to our funding partners.

Be willing to work **hand-in-hand** with partners to train mentors, especially to work with women and children impacted by incarceration.

Who are we?

We are local volunteers working to help formerly incarcerated neighbors and their families as they return to our communities.

We try to assist people with financial needs and connect them to agencies and support groups that provide education, health care, mental health services, employment, and other critical resources.

Get Support

Start Here.

 Immersion is a point of reentry that focuses on empowering people to think, act, and behave more positively and productively through a focus on healthy relationships, employability, financial capability, and stretching expectations.

 How you handle your first 72 hours after release is critical.

 If you or someone you know needs support with reentering the community from incarceration, we can help.

Reach out to see how we can support you.
